

FOR IMMEDIATE RELEASE

Cybereason and Crayon Announce Global Partnership

Boston, December 6, 2017- [Cybereason](#), creators of the leading cybersecurity data analytics platform including endpoint detection and response, next-generation antivirus, and active monitoring services, and [Crayon](#), the global leader in software asset management (SAM), cloud and volume licensing, today announced a strategic partnership. The agreement enables Crayon to begin distributing Cybereason's award-winning big data analytics cybersecurity platform to its distribution network of 3,500 global partners.

Today, Global 2,000 enterprises are facing increasingly sophisticated cyberattacks. By working with Crayon's extensive partner network across the globe, enterprises can build a security roadmap utilizing the company's SAM expertise, underpinned with Cybereason's world-class big-data analytics cybersecurity platform to stop threats in real time.

"We are delighted to be partnering with Cybereason because they are one of the fastest growing technology companies in the world, and their cybersecurity data analytics platform is a world class and natural fit for Crayon's fast-growing partner community," said Richard Lockey, Crayon UK CEO.

"Crayon has proven to be a true leader in the enterprise software community. We look forward to working closely together as we enable their community of 3,500 global partners to deliver new cybersecurity software and services offerings to their customers," said Gregg Henebry, Vice President of Channels, Cybereason.

"Crayon Middle East & Africa has been growing fast and a key area of focus is cybersecurity. Cybersecurity addresses the urgent market requirements for solid foolproof solutions that solve, remediate or mitigate the current wave of data breaches, ransomware and other advanced cyber threats. After extensive research, Crayon chose Cybereason as the primary solution for EDR for their channel offerings in Middle East & Africa, not only for its advanced analytics in detecting threats but also, its best-in-class prevention and response capabilities. Cybereason will allow Crayon's resellers to better serve their customers and offer a comprehensive solution stack that integrates EDR at its core," said Karim Kalaawi, General Manager Cloud & Distribution Crayon MEA

About Crayon

Crayon Group Holding ASA is a leading IT advisory firm in software and digital transformation services. Crayon optimizes its clients' ROI from complex software technology investments by combining long experience within volume software licensing optimization, digital engineering and predictive analytics. Headquartered in Oslo, Norway, the company has approximately 1,100 employees in 43 offices worldwide.

About Cybereason

Cybereason, creators of the leading cybersecurity data analytics platform, gives the advantage back to the defender through a completely new approach to cybersecurity. Cybereason offers endpoint detection and response (EDR), next-generation antivirus (NGAV), and active monitoring services, all powered by its proprietary data analytics platform. The Cybereason suite of products provides unmatched visibility, increases analyst efficiency and effectiveness, and reduces security risk. Cybereason is privately held, having raised \$189 million from top-tier VCs, and is headquartered in Boston, with offices in London and Tokyo.
